CHOICE

AIR CAB S.r.l.
cabin air filter

CHI SIAMO

- Air Cab è in attività dal 2001.
Progetta produce e commercializza filtri aria abitacolo.
- La nostra azienda si trova a Chivasso, in Italia, cittadina dove nasce il marchio Lancia, in provincia di Torino, città storica per l'automobile, dove progettiamo, produciamo e distribuiamo i filtri cabina di alta qualità.
- Air Cab ha fatto progressi significativi nel 2007, quando si è trasferita nell'attuale stabilimento, che proprio quest'anno è stato ulteriormente ampliato a circa 4000 m².
- Nel 2015 abbiamo ottenuto la certificazione UNI EN ISO 9001:2008, al fine di "Progettare e produrre filtri aria abitacolo".
- Attualmente sviluppiamo e produciamo 530 modelli per il settore Automotive, utilizzando solo materiali di altissima qualità.

VANTAGGI

- Previene appannamento parabrezza.
- Allunga gli intervalli di tempo di pulizia degli impianti di riscaldamento, ventilazione e condizionamento dell'aria.
- Riduce elementi tossici all'interno del veicolo.
- Filtra anche le emissioni dei veicoli diesel.
- Aiuta le persone che soffrono di asma e allergie.

PRODOTTI

- Catalogo completo per auto, veicoli industriali e bus, sempre in costante aggiornamento.
- Ampio stock di magazzino, circa 500.000 pezzi.
- Anni di esperienza nella produzione di filtri abitacolo.
- Specializzazione aftermarket.
- "Made in Italy" di qualità a prezzi competitivi.
- Alto grado di flessibilità ed efficienza, soddisfiamo le richieste dei clienti in tempi brevi.
- Prodotti su misura e/o specifiche del cliente.
- Produzione con marchio cliente.
- Supporto alla vendita attraverso catalogo dettagliato e gadget promozionali.
- Rete distributiva trasparente.
- I nostri filtri sono realizzati con materiali di alta qualità conformi al primo impianto.
- Al fine di ottenere la massima efficienza usiamo poliestere di prima qualità che viene sviluppato e prodotto secondo le specifiche del primo equipaggiamento.
- I materiali che utilizziamo sono di pari caratteristiche a quelli che si trovano in origine.

QUALITÀ

- La AIR CAB S.r.l. sviluppa, produce e commercializza filtri per autoveicoli sia per il primo equipaggiamento che per l'aftermarket.
- La AIR CAB S.r.l. dichiara, ai sensi del decreto BER 461/2010 "Block Exemption Regulation" rettificato dalla commissione Europea, che gli standard qualitativi della gamma FREE sono creati per garantire piena intercambiabilità tecnica, dimensionale e funzionale rispetto ai corrispondenti particolari di ricambio originali e sono prodotti in modo da escludere qualsiasi perdita e assicurare una perfetta ermeticità nel predisposto vano di alloggiamento al fine di impedire la penetrazione di sostanze inquinanti.
- La AIR CAB S.r.l. comunica inoltre che i filtri FREE possono essere impiegati per le riparazioni e le manutenzioni dei veicoli anche durante il periodo di garanzia senza che tale impiego possa costituire ragione per la revoca delle garanzie del costruttore.

COMPANY

- Air Cab started in 2001.
It Designs produces and supply own brands.
- Our company is located in Chivasso, Italy, the town where was born the Lancia brand, in the province of Turin, the historic town to the car, where we design, produce and distribute high-quality cabin filters.
- Air Cab has made significant progress in 2007, when it moved to its current premises, which this year was expanded to about 4000 m2.
- In 2015 we obtained the UNI EN ISO 9001: 2008, in order to "Designing and producing cabin air filter".
- Currently we develop and manufacture 530 models for Automotive sector using only the highest quality material.

BENEFITS

- It prevents windscreen fogging.
- Postpone the cleaning intervals of heating, ventilation and air conditioning.
- It reduces toxic elements inside the vehicle.
- Removes even the emissions from diesel vehicles.
- It helps people who suffer from asthma and allergies.
- It prevents headaches and nausea.
- It keeps the inside of the windscreen clean for a longer period of time.
- It increases the overall comfort travel.
- It is not very expensive, but very favorable for the well-being of the person.

EMPRESA

- Air Cab nació en 2001. Diseña fabrica y distribuye propios brands.
- Nuestra empresa está ubicada en Chivasso, Italia, la ciudad donde nació la marca Lancia, en la provincia de Turin, la ciudad histórica del Auto, donde diseñamos, producimos y distribuimos filtros de cabina de alta calidad.
- Air Cab ha hecho progresos significativos en 2007, cuando se trasladó a su actual planta, que este año se amplió a 4000 m2.
- En 2015 obtuvimos la UNI EN ISO 9001: 2008, con el fin de "Diseñar y producir filtro de aire de cabina".
- En la actualidad desarrollamos y fabricamos 530 modelos para el sector Automocvil utilizando sólo material de la más alta calidad.

BENEFICIOS

- Evita el empañamiento del parabrisas.
- Aplazar los intervalos de limpieza de calefacción, ventilación y aire acondicionado.
- Reduce los elementos tóxicos dentro del vehículo.
- Elimina también las emisiones de los vehículos diesel.
- Ayuda a las personas que sufren de asma y alergias.
- Previene dolores de cabeza y náuseas.
- Mantiene el interior del parabrisas limpio durante un período de tiempo más largo.
- Aumenta el confort durante el viaje.
- No es muy caro, pero muy favorable para el bienestar de la persona.

PRODUCTS

- Complete catalogue for cars, trucks and buses constantly update.
- Wide warehouse with 500,000 pieces.
- Years of experience in the production of cabin air filters.
- Aftermarket specialization.
- "Made in Italy" of quality at competitive prices.
- High flexibility and efficiency, we satisfy the requests of customers in a short time.
- Customized products and/or customer specifications.
- Production with customer's brand.
- Sales support through detailed catalogue and promotional gadgets.
- Transparent distribution network.
- Our filters are manufactured with high quality material in compliance with the first plant.
- In order to obtain maximum efficiency we use first quality polyester that is developed and produced according to the specifications of the first equipment.
- The materials we use are of equal characteristics to those who are in origin.

QUALITY

- AIR CAB S.r.l. develops, manufactures and supplies automotive filters for both original equipment and the aftermarket sectors.
- AIR CAB S.r.l. declares, according to the Decree BER 461/2010 ("Block Exemption Regulation") ratified by the European Commission, that the standard quality of the range FREE is perfectly interchangeable in any technical, dimensional and functional aspect to the equivalent original spare parts and they are produced in such a way as to preclude any loss and ensure a perfect airtightness in the housing compartment in order to prevent the penetration of pollutants.
- AIR CAB S.r.l. furthermore informs that all part numbers by FREE can be used to repair and carry on maintenance of vehicles even during the warranty period without such an use to constitute reason for the cancellation of any manufacturer's guarantee.

PRODUCTOS

- Catálogo completo para automóviles, camiones y autobuses en constante actualización.
- Amplio almacén con 500.000 piezas.
- Años de experiencia en la producción de filtros de aire de cabina.
- Especialización Aftermarket.
- "Made in Italy" de calidad a precios competitivos.
- Alta flexibilidad y eficiencia, satisfacemos las necesidades de los clientes en poco tiempo.
- Productos personalizados y / o especificaciones del cliente.
- Producción con la marca del cliente.
- Soporte de ventas a través de catálogos detallados y gadgets promocionales.
- Red de distribución.
- Nuestros filtros están fabricados con material de alta calidad en conformidad con la primera planta.
- Con el fin de obtener la máxima eficiencia utilizamos poliéster de primera calidad que se desarrolla y produce según las especificaciones del primer equipo.
- Los materiales que utilizamos son de características iguales a los de origen.

CALIDAD

- AIR CAB S.r.l. Desarrolla, fabrica y provee filtros automotrices tanto para equipos originales como para l'After-Market.
- AIR CAB S.r.l. Declara, de acuerdo con el Decreto BER 461/2010 ("Reglamento de Exención por Categorías") ratificado por la Comisión Europea, que la calidad estándar de la gama FREE es perfectamente intercambiable en cualquier aspecto técnico, dimensional y funcional con las piezas originales equivalentes y que se producen de tal manera que se evite cualquier pérdida y se garantiza una perfecta estanqueidad dispuesta en el compartimiento de alojamiento con el fin de evitar la penetración de contaminantes.
- AIR CAB S.r.l. Además informa que todos los filtros FREE pueden ser utilizados para reparar y hacer el mantenimiento de los vehículos incluso durante el período de garantía sin que tal uso constituya motivo para la cancelación de la garantía de ningún fabricante.

AIRCAB SINONIMO DI QUALITÀ E AFFIDABILITÀ

L'AZIENDA:

AIR CAB è una giovane azienda italiana nata nel 2001, specializzata nella produzione di filtri aria abitacolo per auto e veicoli industriali nel settore After-Market.

Inizialmente i fratelli e partners Marco e Luca Segreto insediarono l'azienda a Torino, ma in pochi anni, grazie alle loro capacità, tenacia e investimenti, l'azienda si è sviluppata così velocemente che in poco tempo è stato necessario il trasferimento nella zona industriale di Chivasso, in un'area di circa 4000 m2.

Possiamo affermare che l'azienda è molto attenta alla tecnologia, permettendo di sviluppare un'alta qualità a prezzi competitivi e limitando l'impatto sull'ambiente.

Air Cab ha come obiettivo l' "Alta Qualità", per divenire la miglior scelta in ambito di servizi e prodotti per i propri clienti.

La nostra gamma di circa 530 riferimenti costantemente aggiornata, soddisfa al meglio la richiesta del mercato nazionale e internazionale.

Air Cab inoltre evade il 99% degli ordini velocemente e con la massima efficienza verso clienti d'Europa e nel resto del mondo, grazie ad un magazzino che contiene approssimativamente 500.000 pz.

Nel corso degli ultimi decenni **l'incremento del traffico automobilistico e delle lavorazioni industriali** ha provocato un aumento della polverosità e degli agenti inquinanti. La purificazione dell'aria avviene essenzialmente attraverso la pioggia...ma nella vostra auto?

L'opportunità di un efficace filtrazione, oltre a mantenere la pulizia degli impianti di ventilazione o climatizzazione, provvede ad eliminare dall'aria tutti quei contaminanti che sono nocivi o irritanti e che a causa delle loro dimensioni possono facilmente raggiungere i polmoni.

La qualità elevata dei filtri abitacolo installati in vettura è indispensabile vista la particolarità dell'azione che deve svolgere: la protezione dell'automobilista da tutte le possibili fonti d'inquinamento.

In un'auto le concentrazioni di inquinanti sono 6 volte maggiori rispetto all'ambiente esterno ed attivare il riciclo interno non è assolutamente sufficiente.

Il cambio regolare dei filtri è reso necessario dai depositi di particelle, foglie, ecc... che con il tempo vanno a coprire il filtro ostacolando il passaggio dell'aria. Inoltre, un filtro sporco può diventare un contenitore di microrganismi, come batteri e muffe. Con un filtro pulito, invece, questo rischio non esiste.

Bisogna ricordare inoltre che i filtri particellari per abitacolo non proteggono soltanto dai pollini, ma anche da sostanze nocive come polvere, fuliggine e frammenti di pneumatici o pastiglie dei freni.

Scegliendo un filtro combinato a carbone attivo, poi, si possono ridurre anche gli odori sgradevoli e l'afflusso nell'abitacolo dei gas di scarico e dell'ozono, noto per i suoi effetti irritanti.

La sostituzione periodica del filtro abitacolo è fondamentale anche per evitare problemi agli impianti di aerazione, riscaldamento e climatizzazione. La sostituzione regolare garantisce quindi non soltanto un sufficiente afflusso d'aria per gli occupanti, ma anche un perfetto funzionamento del riscaldamento e del climatizzatore, riducendo al minimo gli interventi di manutenzione e i relativi costi.

È pertanto chiara l'importanza di installare i filtri FREE, che grazie alla loro elevata qualità, garantiscono la tutela della salute dell'automobilista.

È consigliata la sostituzione del filtro ogni 15.000 km o 1 anno.

I filtri dell'aria per l'abitacolo sono generalmente distinti nelle due seguenti tipologie:

Filtri Particellari

Sono realizzati in tessuto non tessuto (non-woven), fibre sintetiche non tessute, preferibilmente di poliestere. In base alle caratteristiche degli elementi filtranti possono trattenere le particelle solide tra cui polvere, pollini, agenti allergeni o sostanze simili di dimensioni di poche decine di micron.

Filtri Combinati – Carbone attivo

La denominazione è dovuta alla doppia funzione svolta dal componente: filtro particellare e filtro anti-odori. Sono realizzati accoppiando ad un elemento filtrante simile a quello dei filtri particellari un secondo elemento di supporto a grani di "Carbone Attivo".

Quest'ultimo assorbe all'interno dei grani una parte dei componenti dei gas di scarico, verso i quali le mucose del naso dell'uomo risultano particolarmente sensibili. Analogamente ai filtri particellari, le caratteristiche degli elementi filtranti determinano un'efficienza filtrante differente, con la possibilità di rimuovere particelle di polvere di dimensioni diverse (generalmente fino alle dimensioni di poche decine di micron), agenti allergeni (pollini o sostanze simili) e odori generati da sostanze chimiche di origine diversa (gas di scarico dei motori, fumi industriali...).

PERCHÉ SCEGLIERE UN FILTRO ABITACOLO FREE?

- Prodotti con materiali filtranti adeguati
- Tolleranze di costruzione inferiori al millimetro
- Parallelismi rispettati
- Aiuto con Indicazioni di posizionamento sulla vettura direttamente sulla confezione
- Cataloghi cartaceo - web – elettronico
- Continuo aggiornamento di gamma

FREE 
cabin air filter
MADE IN ITALY

AIRCAB IS SYNONYM OF QUALITY AND RELIABILITY

THE COMPANY:

AIR CAB is a young Italian company born in 2001, specializing in the production of cabin air filters for passenger cars and industrial vehicles which operates in the After-Market sector.

At the beginning, the brothers and partners Marco and Luca Segreto, established the company in Turin, but in a few years, thanks to their tenacity and constancy and also due to new investments, we developed so quickly that in a short time, the plant moved in Chivasso on an area of 4,000 squared meters.

We can affirm that the company is very attentive to the technology, it shows that in the last years we did a lot of investments, in new technologies in Automation.

Furthermore the use of last generation machinery is very important because it ensures a limited impact on the environment thanks to low consumption.

Air Cab has an Aim "the maximum quality" to be for its clients the best choice in matter of products and services. ***In fact with a wide range of 530 references constantly updated, we guarantee and satisfy the demand of the national and international market.***

Air Cab carry out the 99 % of the orders quickly and efficiently to customers in Europe and all over the World, thanks to a warehouse which contains approximately 500,000 pieces .

In the last decades the increase of the traffic car and industrial processes has caused a growth of dust and contaminants. Air purification is done mainly through the rain...but in your car?

The opportunity of an effective filtration, in addition to maintaining the cleanliness of ventilation and air conditioning systems, provides a clean air from all the contaminants that are harmful or irritating and that due to their size can easily reach the lungs.

The high quality of cabin air filters installed in the car is essential for the important role that they play: the driver's protection from all possible sources of pollution.

In a car, pollutant concentrations are 6 times higher than outside and activate the internal recycling is not enough.

The regular change of the filters is necessary by the deposits of particles, leaves, etc. ... that over time, go to cover the filter obstructing the passage of air. In addition, a dirty filter can become a container of microorganisms, such as bacteria and molds. With a clean filter, however, this risk does not exist. It must be remembered also that the particle cabin air filters protect not only passengers compartment by pollen, but also from harmful substances such as dust, soot and fragments of tires or brake pads.

Choosing a combined activated carbon filter, then, you can also reduce unpleasant odors in the passenger compartment and the incoming of exhaust gases and ozone, known for its irritant effect. Periodic replacement of the cabin air filter is also essential to avoid problems with ventilation, heating and air-conditioning.

The Regular replacement ensures not only an adequate influx of air for the occupants, but also a perfect operation of the heating and the air conditioner, reducing to a minimum the interventions of maintenance and the relative costs.

Therefore, it is clear the importance of installing FREE filters, because thanks to their high quality, they guarantee the protection of the driver's health.

It is recommended change the filter every 15,000 km or 1 year.

AIRCAB ES SINONIMO DE CALIDAD Y CONFIABILIDAD

EMPRESA:

AIR CAB es una joven empresa italiana nacida en 2001, especializada en la producción de filtros de aire de cabina para la línea liviana y pesada que opera en el sector After-Market.

En primer lugar, los hermanos y socios Marco y Luca Segreto establecieron la Empresa en Turín, pero en pocos años, gracias a la tenacidad y constancia junto a nuevas inversiones, nos ha permitido un desarrollo tan rápido que en poco tiempo la planta se trasladó en Chivasso, en una superficie de 4.000 metros cuadrados.

Podemos afirmar que la empresa está muy atenta a la tecnología, lo muestra que en los últimos años hicimos muchas inversiones en nuevas tecnologías en Automatización.

Además, el uso de maquinaria de última generación es muy importante porque asegura un impacto limitado sobre el medio ambiente gracias al bajo consumo.

Air Cab tiene como objetivo "la máxima calidad" para ser para sus clientes la mejor opción en materia de productos y servicios. ***De hecho, con una amplia gama de 530 referencias constantemente actualizadas, garantizamos y satisfacemos la demanda del mercado nacional e internacional.***

Air Cab despacha el 99% de los pedidos de forma rápida y eficiente a clientes de Europa y en todo el mundo, gracias a un almacén que contiene aproximadamente 500.000 piezas.

Durante las últimas décadas, el aumento en el tráfico de automóviles y los procesos industriales se ha traducido en un aumento de polvo y contaminantes. Purificación del aire se realiza principalmente a través de la lluvia... pero en su coche?

La posibilidad de una filtración efectiva, además de mantener la limpieza de los sistemas de ventilación o aire acondicionado, se deberá eliminar de todos los contaminantes que son nocivos o irritantes y que debido a su tamaño puede llegar fácilmente a los pulmones.

La alta calidad de los filtros de aire de cabina instalados en el coche es esencial dadas las peculiaridades de la acción que se realiza: la protección del conductor de todas las posibles fuentes de contaminación.

En un coche las concentraciones de contaminantes son 6 veces más altas que afuera en el aire libre y activar el reciclaje interno no es suficiente.

El cambio regular de los filtros es necesario por los depósitos de partículas, hojas, etc. ... que con el tiempo vaya a cubrir el filtro obstruyendo el paso del aire. Además, un filtro sucio puede convertirse en un contenedor de microorganismos, tales como bacterias y mohos. Con un filtro limpio, sin embargo, no existe este riesgo. Hay que recordar también que los filtros de partículas no protegen sólo por el polen, sino también de sustancias nocivas tales como polvo, hollín y fragmentos de los neumáticos o las pastillas de freno. La elección de un filtro de carbón activado combinado también puede reducir los olores desagradables en el compartimiento de pasajeros y la afluencia de los gases de escape y ozono, conocidas por su efecto irritante. La sustitución periódica del filtro habitáculo es también esencial para evitar problemas con la ventilación, calefacción y aire acondicionado.

El reemplazo regular entonces no sólo garantiza un suministro adecuado de aire para los ocupantes, sino también un perfecto funcionamiento de la calefacción y el aire acondicionado, lo que reduce a un mínimo las intervenciones de mantenimiento y los costes relativos.

Por lo tanto, es evidente la importancia de la instalación de filtros FREE, que gracias a su alta calidad garantizan la protección de la salud de los automovilistas.

Se recomienda cambiar el filtro cada 15.000 km o una vez a 1' año

The cabin air filters are generally divided in two types:

Particle filters

They are made of non-woven fabric (non-woven), synthetic non-woven fibers, preferably of polyester. Based on the characteristics of the filter elements can keep the solid particles including dust, pollen, allergens agents or similar substances of dimensions of a few tens of microns.

Combined filters - Active carbon

The name is due to the double function performed by the component: particle filter and anti-odour filter. They are made ,by coupling to a filter element similar to the particle filter, a second grains support element "Active Carbon ". The last one absorbs, inside the grains, a part of the exhaust gas components to which the man's nose mucous membranes are particularly sensitive. Similarly to particle filters, the characteristics of the filtering elements determine a different filtration efficiency, with the possibility of removing dust particles of different sizes (generally up to the size of a few tens of microns), allergen agents (pollen or similar substances) and odors generated by chemical substances of different origin (the exhaust gas of engines, industrial smokes...).

Why choose a cabin air filter FREE?

- Products with suitable filter materials.
- Production tolerance is less than one millimeter.
- It respects parallelism.
- Specifications directly on the packaging to help about filter position.
- Paper catalogues – Web - Electronic.
- Continuous range updating.

Los filtros habitáculo se dividen generalmente en los siguientes dos tipos:

Los filtros de partículas

Están hechas de tela no tejida (non-woven), fibras sintéticas no tejidas, preferiblemente de poliéster. Sobre la base de las características de los elementos de filtro , puede retener las partículas sólidas que incluyen polvo, polen, agentes alérgenos o sustancias similares de dimensiones de unas pocas decenas de micras.

Los filtros de carbón activo combinados

El nombre se debe a la doble función realizada por el componente: filtro de partículas y un filtro anti-olor. Están hechas por acoplamiento, a un elemento de filtro similar a la de un filtro de partículas un segundo elemento de soporte con granos de "Carbón Activo ". Este último absorbe a l'interior de los granos una parte de los componentes del gas de escape, a las que las membranas mucosas de la nariz del hombre son particularmente sensibles. De manera similar a los filtros de partículas, las características de los elementos de filtro determinan diferente eficiencia de filtración, con la posibilidad de eliminar partículas de polvo de diferentes tamaños (en general, hasta el tamaño de unas pocas decenas de micras), agentes alérgenos (polen o similares sustancias) y olores generados por las sustancias químicas de origen diferente (los gases de escape de los motores, los humos industriales ...).

FREE[®]
cabin air filter
MADE IN ITALY

Por qué elegir un filtro habitaculo FREE?

- Se producen con materiales de filtro adecuados.
- Las tolerancias de construcción es menos de un milímetro.
- Paralelismos respetados.
- Ayudar con especificaciones situadas directamente sobre l'estuche por el posicionamiento del filtro.
- Catálogos de papel - Web - Electronico.
- Actualización continua de la gama.

AVVERTENZE

- I dati contenuti in questo catalogo sono stati inseriti nel modo più corretto possibile.
- Di conseguenza si declina ogni responsabilità per eventuali inesattezze. In nessun caso verranno riconosciuti diritti di risarcimento di qualsiasi tipo causati da errori ed omissioni. Ci riserviamo il diritto di apportare modifiche in qualsiasi parte ed in qualsiasi momento.
- I numeri originali ed i nomi dei fabbricanti utilizzati in questo catalogo servono esclusivamente a scopo comparativo e non possono essere utilizzati diversamente in nessun caso.
- La riproduzione totale o parziale é esplicitamente vietata.

La AIR CAB S.r.l. sviluppa, produce e commercializza filtri per autoveicoli sia per il primo equipaggiamento che per l'aftermarket. La AIR CAB S.r.l. dichiara, ai sensi del decreto BER 461/2010 "Block Exemption Regulation" rettificato dalla commissione Europea, che gli standard qualitativi della gamma FREE sono creati per garantire piena intercambiabilità tecnica, dimensionale e funzionale rispetto ai corrispondenti particolari di ricambio originali.

La AIR CAB S.r.l. comunica inoltre che i filtri FREE possono essere impiegati per le riparazioni e le manutenzioni dei veicoli anche durante il periodo di garanzia senza che tale impiego possa costituire ragione per la revoca delle garanzie del Costruttore.

DISCLAIMER

- The information of this catalogue have been inserted in the most correct way.
- Consequently we refuse ali responsibility for possible inaccuracy. In no case, rights of compensation determined by mistakes and omissions will be entitled.
- We reserve the right to modify the information in any part and at any time.
- The originai numbers and the manufacturers' names quoted in this catalogue are merely helpful to give a comparison and can't be used for other purposes under no circumstances.
- The total or partial reproduction is explicitly not allowed.

AIR CAB S.r.l. develops, manufactures and supplies automotive filters for both original equipment and the aftermarket sectors. AIR CAB S.r.l. declares, according to the Decree BER 461/2010 ("Block Exemption Regulation") ratified by the European Commission, that the quality standards of the FREE range are designed to grant that products are fully interchangeable with original spare parts, in any technical, dimensional and functional aspect.

AIR CAB S.r.l. furthermore informs that all part numbers by FREE can be used to repair and carry on maintenance of vehicles even during the warranty period, without such an use to constitute reason for the cancellation of any manufacturer's guarantee.

ADVERTENCIAS

- Las informaciones de este catálogo se han insertadas de la manera la mas correcta.
- Por lo tanto, rechazamos toda responsabilidad de posibles inexactitudes.
- En ningun caso, derechas de remuneración determinadas par errores y omisiones serán reconocidas.
- Reservamos la derecha de modificar las informaciones en cualquiera parte y encualquier momento.
- Los números originales y los nombres de los fabricantes cotizados en este catálogo son prove chosos simplemente para dar una comparación y no se pueden nunca utilizar para otros propósitos.
- El copyright total o parcial no se permite explicitamente y no se pueden nunca utilizar para.

AIR CAB S.r.l. desarrolla, fabrica y comercializa filtros para autovehículos, para los equipos originales así como el mercado de recambios. AIR CAB S.r.l. declara, en conformidad con el Decreto BER 461/2010 "Reglamento de exención" ratificado por la Comisión Europea, que las normas de calidad de los filtros de la gama FREE están proyectados para garantizar la total intercambiabilidad técnica, dimensional y funcional con los recambios originales.

AIR CAB S.r.l. además informa que los filtros FREE se pueden utilizar para la reparación y el mantenimiento de vehículos, incluso en el plazo de garantía, sin que esto pueda traer como consecuencia cancelación de las garantías del fabricante.

HINWEIS

- Dieser Katalog wurde mit großer Sorgfalt zusammengestellt, er ist jedoch unverbindlich. Wir behalten uns das.
- Recht vor, die angegebenen Informationen zu ändern.
Aufgeführte Teilenummern der dienen nur zu Vergleichszwecken.
- Sämtliche Urheberrechte liegen beim Herausgeber.
- Nachdruck, Vervielfältigung, Daten trügerspeicherung und Verbreitung, auch auszugsweise, darf nur mit Genehmigung des Herausgebers erfolgen.

Das Unternehmen AIR CAB S.r.l. entwickelt, produziert und vertreibt Filter und Filtereinsätze für Kraftfahrzeuge, die sowohl zur Erstausrüstung als auch am Ersatzteilmarkt angeboten werden. Gemäß der von der europäischen Kommission erlassenen Gruppenfreistellungserklärung VO 461/2010 bestätigt die AIR CAB S.r.l., die Qualitätsstandards von FREE so angesetzt zu haben, dass die Filter sowohl bei technischen und funktionalen Anforderungen als auch hinsichtlich der Abmessungen einen garantiert vollwertigen Ersatz zu den Originalersatzteilen darstellen.

Das Unternehmen AIR CAB S.r.l. erklärt darüber hinaus, dass die Filter von FREE auch während des Garantiezeitraums für Reparatur und Wartung der Kraftfahrzeuge verwendet werden können, ohne dass daraus ein Grund für den Widerruf der Herstellergarantie entsteht.

AVERTISSEMENT

- Les informations contenues dans ce catalogue ont été insérées dans la façon la plus correcte possible.
- Par conséquence, on décline toute responsabilité pour des éventuelles inexactitudes. En aucun cas, droits d'indemnisation, causés par n'importe quel type d'erreur et d'omission, seront reconnus.
- On se réserve le droit d'apporter des modifications aux informations dans n'importe quelle partie et à tout moment.
- Les nombres originaux et les noms des fabricants cités dans ce catalogue ont exclusivement un but comparatif et ils ne peuvent pas être utilisés autrement en aucun cas. La reproduction totale ou partielle est explicitement défendue.

La société AIR CAB S.r.l. développe, produit et commercialise des filtres pour véhicules aussi bien pour la Première Monte Originale que pour l'après-vente. La société AIR CAB S.r.l. déclare, que selon le décret BER 461/2010 «Block Exemption Regulation» ratifié par la Commission européenne, que les standards qualitatifs de la gamme FREE ont créées pour garantir la pleine interchangeabilité technique, dimensionnelle et fonctionnelle par rapport aux correspondants de la rechange originale.

La AIR CAB S.r.l. informe que les filtres FREE peuvent être employés pour les réparations et la manutention des véhicules et ce, même durant la période de garantie sans que cela puisse constituer un motif de révocation des garanties du constructeur.

AIR CAB S.r.l. разрабатывает, производит и поставляет для рынка автомобильные фильтры как для первичной оснастки, так и запчасти для сервиса после продажи. AIR CAB S.r.l. заявляет, в соответствии с декретом BER 461/2010 "Block Exemption Regulation" ратифицированным Европейской Комиссией, что стандарты качества ассортимента FREE обеспечивают полную взаимозаменяемость технических, габаритных и функциональных характеристик относительно соответствующих деталей оригинальных запчастей.

AIR CAB S.r.l. ставит в известность, что фильтры FREE могут использоваться при ремонте и обслуживании транспортных средств, также в течение гарантийного срока не вызывая отмену гарантии Производителя.
